STANLEYTOOLS.COM

DO MORE WITH V20 POWER*

Whether you're fitting a kitchen, converting an attic, or redeveloping the garden, with more than 50 tools & equipment in the range, you can tackle more jobs than ever before with our 18V STANLEY® FATMAX® V20 lithium ion cordless tool system.

PROFESSIONAL GRADE BATTERY CELLS

Our new and improved batteries are made from professional grade 18650 type Samsung battery cells with lower impedance for more power.

PROTECTION FROM EXTREME TEMPERATURES

V20 batteries are protected from discharging in extreme temperatures, from -30°C to +75°C.

FULLY AUTOMATED ASSEMBLY

Built on an automated assembly line in sterile conditions for improved build quality and greater reliability.

VIGOROUSLY TESTED

Our battery packs are vigorously tested for moisture ingress, thermal shock, drop and vibration as part of the approvals process.

*With more than 50 tools & equipment in the 18V STANLEY® FATMAX® V20 lithium ion cordless tool system, versus 35 in our previous 18V STANLEY® FATMAX® lithium ion cordless tool system, you can now tackle a wider range of applications to do more jobs than before.

IMPROVED BATTERY TECHNOLOGY.

Our new 18V lithium-ion V20 battery pack lies at the heart of the system and it is fully compatible with all the power tool and outdoor tools in the range. With improved battery technology, no memory effect and minimal self discharge, it is ready to go to work whenever you are and wherever the job takes you and it will last longer too.

Batteries are available in four sizes, so you can choose the one that best suits the jobs you do and feature an integral battery state of charge indicator for convenient monitoring of battery charge levels.

The range also includes an adaptor so you can use your new 18V V20 1.5Ah and 2.0Ah batteries with any existing 18V STANLEY® FATMAX® cordless power tool you may have in your toolbox.

1.5Ah

delivery for longer

PROFESSIONAL TOOL PERFORMANCE.

New & improved professional grade tools that are now even harder to beat, designed to withstand whatever gets thrown at them.

TEMPERATURE PROTECTION

Unit stops operating to protect itself if it gets too hot. Operating temperature range up to 95°C.

UPGRADED SBS MODULE*

Programmed to accommodate and adjust performance for higher capacity packs.

OVERLOAD PROTECTION

Unit monitors current load every 0.005 seconds to prevent overload.

HIGHER RATED SWITCH

Manages the higher energy flow from lower impedance battery packs.

IMPROVED MOTORS

Professional grade motors for improved performance and longer life.

VIGOROUSLY TESTED

Tested for moisture ingress, thermal shock, drop and vibration to ensure they're fit for the job.

PRO GRADE BUILD

2+1 Tab build allows for better energy flow, cooler packs, and more cycle time.

brushless TECHNOLOGY.

The V20 range includes tools with brushless motors that use a contactless electronic controller that continually switches the electrical phase to keep the motor turning rather than carbon brushes, giving the tools significant benefits over brushed models.

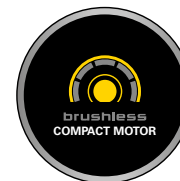

MORE POWER

Brushless motors don't lose energy in wasted friction or heat giving you more power for demanding applications.

MORE RUNTIME

The use of a contactless electronic controller rather than carbon brushes means that less battery energy is wasted so the tool can work for longer on the same battery pack.

COMPACT MOTOR

Brushless tools are more compact due to the smaller motor design making them lighter to use and easier to operate in hard to reach applications.

A FULL RANGE CORDLESS SYSTEM.

Get the benefit of a true power tool system based around the long lasting next generation V20 cordless battery technology. The extensive range includes high quality tools from drills, drivers and cutting tools to outdoor equipment and more.

BATTERIES AND CHARGERS

The 54V STANLEY® FATMAX® V20 range includes 3 different sizes of battery and 2 charger options so you can choose the best combination for your tools. Starter kits are also available that include everything you need - see the table opposite for more details.

18V STANLEY® FATMAX® V20 BATTERIES

- 3 battery sizes available both separately and as part of a starter kit

Product Code	Power
SB20S	1.5Ah
SFMCB202	2.0Ah
SFMCB204	4.0Ah
SFMCB206	6.0Ah

18V STANLEY® FATMAX® V20 CHARGERS

SFMCB14

- Charges 1.5Ah battery in up to 22mins

SFMCB24

- Simultaneous charging allows for two packs to charge at once
- Charges 18V STANLEY® FATMAX® V20 2 x 4.0Ah packs in 30 minutes
- Comes with USB port to charge phones/ tablets etc

Product Code	Charging Ports
SFMCB14	x1
SFMCB24	x2

18V STANLEY® FATMAX® V20 ADAPTOR

- Converts 18V STANLEY® FATMAX® V20 1.5Ah and 2.0Ah batteries for use with older 18V STANLEY® FATMAX® cordless power tools.

Product Code	Compatibility
SFMCB100	1.5Ah and 2.0Ah

DRILL DRIVERS

A drill driver is an essential piece of kit in any toolbox and these cordless V20 models are perfect for a wide range of jobs with 2-speed gearboxes and mutiple clutch settings.

18V STANLEY® FATMAX® V20 DRILL DRIVER

- Integral battery state of charge indicator for convenient monitoring of battery charge levels
- Powerful motor providing up to 1,500 RPM and 50Nm of torque for efficient drilling and screwdriving into wood, metal and plastic
- 24 clutch settings to control the fastener driving depth
- 2-Speed gearbox with speeds of 0-350/0-1,500 RPM for greater control over the job
- Integral LED worklight for improved visibility
- Keyless chuck for easy bit changes

- Brushless motor technology for improved power efficiency and longer runtime
- Integral battery state of charge indicator for convenient monitoring of battery charge levels
- Powerful motor providing up to 1,900 RPM and 60Nm of torque for efficient drilling and screwdriving into wood, metal and plastic
- 15 clutch settings to control the fastener driving depth
- 2-Speed gearbox with speeds of 0-600/0-1,900 RPM for greater control over the job

HAMMER DRILLS

These adaptable tools are not only perfect for efficient drilling and screwdriving into softer materials such as timber but also include the powerful hammer action needed for drilling into harder masonry and brick.

18V STANLEY® FATMAX® V20 HAMMER DRILL

- Integral battery state of charge indicator for convenient monitoring of battery charge levels
- Powerful hammer action provides up to 25,500 BPM for efficient drilling into masonry
- Powerful motor providing up to 1,500 RPM and 50Nm of torque for efficient drilling and screwdriving into wood, metal and plastic
- 24 clutch settings to control the fastener driving depth

SDS PLUS DRILLS

An SDS PLUS drill will give you the power you need for heavy duty applications such as chiselling into concrete and aggregates or drilling into wood and metal.

18V STANLEY® FATMAX® V20 BRUSHLESS SDS PLUS HAMMER DRILL

- Brushless motor technology for improved power efficiency and longer runtime
- Powerful hammer action provides up to 5,500 BPM for efficient drilling into masonry
- 2.0J of impact energy allows for efficient drilling and chiseling in concrete and aggregates
- 3 modes (hammer drilling, chiselling and rotary drilling)
- Variable speed switch for maximum application control
- Depth guide for carrying out repeat applications
- Quick release chuck for easy bit changes

IMPACT DRIVERS

The high torque and additional rotational force of an impact driver lets you effortlessly drive or loosen even large screws and bolts and they come in to their own when you are faced with driving hundreds of screws on projects such as decking or timber construction.

18V STANLEY® FATMAX® V20 IMPACT DRIVER

- Integral battery state of charge indicator for convenient monitoring of battery charge levels
- Powerful motor providing up to 2,800 RPM, 3,100 BPM and 165Nm of torque for driving larger fasteners

IMPACT WRENCHES

Designed for use with 1/2" sockets, these V20 impact wrenches have powerful motors for driving large fasteners such as wheel nuts and scaffolding.

18V STANLEY® FATMAX® V20 IMPACT WRENCH

- Powerful motor providing up to 1700 RPM and 450Nm of torque for driving larger fasteners and other high torque applications

MULTI TOOLS

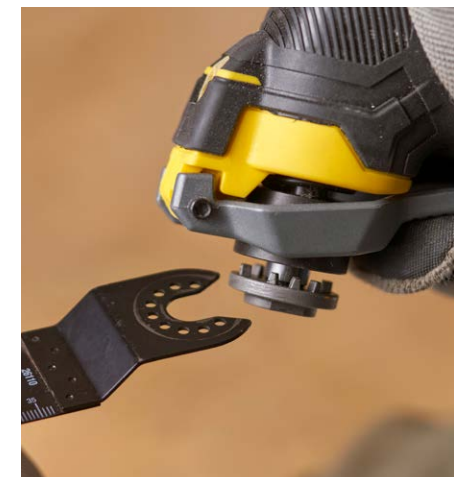

A V20 multi tool is one of the most useful pieces of kit to have in your toolbox. Using a wide selection of different attachments, they can be used for a wide variety of jobs including plunge cuts, trimming of excess materials, detail sanding in tight areas, removing grout, scraping old paint or adhesive and more.

18V STANLEY® FATMAX® V20 MULTI MATERIAL CUTTING TOOL

- Tool-free accessory system makes adjusting and changing attachments quick and easy
- Variable speed for maximum control across a variety of applications and materials
- Integral LED worklight for improved visibility
- Clean and efficient plunge cuts, trimming of excess materials, detail sanding in tight areas, removing grout, scraping old paint or adhesive and all manner of other jobs

ANGLE GRINDERS

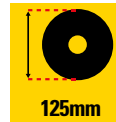

If you need to cut anything from paving slabs to metal or polish and deburr metal fabrication, you'll need the time-saving high performance of an angle grinder to get the job done fast.

18V STANLEY® FATMAX® V20 CUT OFF TOOL

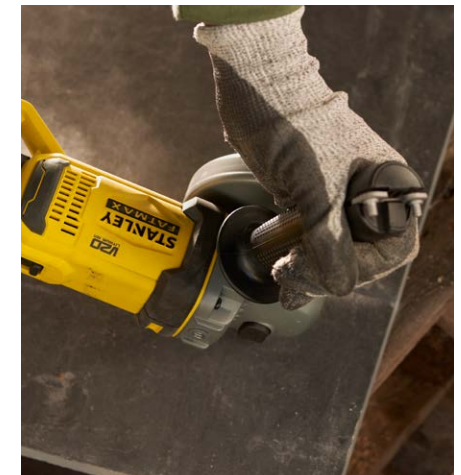

- Integral battery state of charge indicator for convenient monitoring of battery charge levels (SFMCG400M2K)
- Powerful high-performance motor provides 9000 RPM's for aggressive applications
- Cast metal gear housing dissipates heat during extended periods of use
- 3-Position handle for comfort and control
- Lock-on switch for reduced fatigue during extended use

- Brushless motor technology for improved power efficiency and longer runtime, from a smaller, more compact motor with reduced maintenance, and extended working life
- Powerful motor provides up to 8,000 RPM's
- Electronic brake allows the disc to stop in 3 seconds
- Side Handle provides easy and controlled two-handed use, with integrated service key
- Keyless safety guard with latch helps effortless wheel change
- Paddle Switch for great handling and usage of the tool
- Lock-on button for intense continuous applications
- 65% more power compared to Stanley Fatmax brushed grinders

RECIPROCATING SAWS

Reciprocating saws are designed with a push/pull saw blade action for fast and efficient cutting. By fitting different types of blade they will power through timber or metal with ease.

18V STANLEY® FATMAX® V20 RECIPROCATING SAW

- Integral battery state of charge indicator for convenient monitoring of battery charge levels (SFMCS300D2K)
- Powerful high-performance motor provides up to 3,000 SPM's
- Variable speed for maximum control across a variety of applications and materials
- Tool-free blade change makes for quick and effortless blade changes

CIRCULAR SAWS

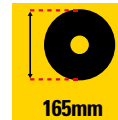

V20 circular saws are essential if you work a lot with wood and need to make fast and accurate rip, cross or angle cuts in materials such as MDF, plywood, and timber.

18V STANLEY® FATMAX® V20 CIRCULAR SAW

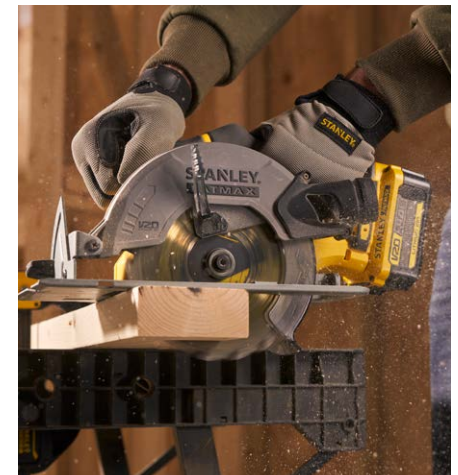

- Integral battery state of charge indicator for convenient monitoring of battery charge levels (SFMCS500M2K)
- Powerful high-performance motor provides up to 4,000 RPM's for easy work of everyday cross and rip cuts
- Tool-free beveling shoe pivots up to 50° for angled cuts

MITRE SAW

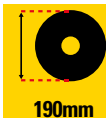

The V20 mitre saw is designed to make mitre cuts , cross cuts, bevel cuts and compound cuts time after time and with high precision due to its innovative shadow-cut line system.

18V STANLEY® FATMAX® V20 190MM MITRE SAW

- Integral battery state of charge indicator for convenient monitoring of battery charge levels
- Perform accurate slide mitre, 90° cross cuts, 47° - 47° mitre cuts, 0° - 45° bevel cuts and compound cuts
- Powerful motor provides 3,800 RPM for cutting 2X dimensional lumber, hardwoods, baseboard and trim with ease
- Innovative shadow-cut line system projects two LED light beams onto either side of the blade, creating a shadow on the cutting surface, for millimetre perfect cuts everytime
- Lightweight design and side carry handle for portability
- Connect to a vacuum hose for hassle-free dust extraction and a cleaner workspace

JIGSAWS

No matter what the job, a cordless jigsaw is always a useful tool to have on hand to cut anything from straight cross cuts to intricate curves. With a suitable blade fitted, it can cut through a wide variety of materials from wood and metal to plastics and sheet materials.

STANLEY® FATMAX® 18V JIGSAW

- Integral battery state of charge indicator for convenient monitoring of battery charge levels (SFMCS600M2K)
- Variable speed trigger ranging from 0-2,500 SPM's
- 3 settings to adjust cut aggressiveness for various materials and applications
- Adjustable shoe for 45° bevel cuts
- Contoured over-molded handle for comfort

SANDERS

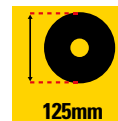

For the perfect pro finish, you'll need a sander that's up to the job whether you need to prepare surfaces for painting or staining or simply need smooth exposed timbers, even in hard to reach areas.

18V STANLEY® FATMAX® V20 RANDOM ORBIT SANDER

- Integral battery state of charge indicator for convenient monitoring of battery charge levels (SFMCW220D1S)
- Powerful motor provides 12,000 RPM's for fast material removal
- High-performance dust collection system to control dust accumulation through an integral dust bag or the use of a vacuum connection
- Lightweight and low profile design provides additional control and reduced vibration
- Dust sealed switch provides for improved durability

NAILERS

A fully portable V20 cordless nailer makes light work of repetitive nailing jobs such as installing skirting and panelling without any of the downsides and additional expense of compressors or gas cartridges.

18V STANLEY® FATMAX® V20 16-GAUGE FINISHING NAILER

- Battery powered design eliminates the need for compressors, hoses or costly gas cartridges
- Drives adhesive collated 16-gauge finish nails
- Provides consistent firing power in changing weather conditions and materials
- Tool-free depth adjustment for quick and easy set-up
- Lightweight design with optimal center of gravity for improved balance and comfort in the hand
- Convenient belt-hook
- Integral LED worklight for improved visibility

OTHER V20 TOOLS

The V20 range includes tools designed so that you can work faster and cleaner, as well as tackle jobs such as large polishing applications.

18V STANLEY® FATMAX® V20 7.5 LITRE WET AND DRY VAC

- Powerful motor for effective cleanup of wet and dry spills
- HEPA grade filter to capture 99.7% of all dust and allergens, for a cleaner, healthier work environment
- Large 7.5 Litre tank for less emptying
- 2.4m hose for extended reach and flexibility
- On-board hose and accessory storage

18V STANLEY® FATMAX® V20 INFLATOR

- 3 power sources including V20 Battery, AC wall plug or 12V car adapter plug for ultimate convenience and use anywhere
- High and low volume output enables users to inflate anything from a football to an automobile tire easily
- The automatic shutoff feature allows users to enter the required PSI setting and walk away, while the digital gauge provides an easy to read display
- Kitted with accessories including Ball Needle, Presta Valve Adapter, Small Inflatable Adapter and Large Volume Hose for convenient and easy use
- High-pressure rubber hose for durability and a handle for easy transportation
- The high-volume hose allows fast inflation of inflatables with the push of a button. Move the hose to the deflation port for Quick and easy take down
- The high-volume air flow can accelerate charcoal readiness time on your grill by providing high volume oxygen where you need it
- Auto shut down after 10 minutes
- Batteries sold separately

18V STANLEY® FATMAX® V20 JOBSITE BLOWER

- High-performance motor and axial fan design provides up to 80m/s Air Speed to clear garden leaves and debris quickly and efficiently
- 3-speed selector switch and variable speed trigger for precise speed control
- 6kg lightweight, compact, comfortable and easy to use design
- Lock-on switch reduces trigger finger fatigue
- Integrated hanging hook for safe storage – compatible with the STANLEY® Track Wall System - an adaptable storage system for the home, garage or workshop
- V20 4.0Ah battery and 2A charger included

18V STANLEY® FATMAX® V20 HEAT GUN

- Extended runtime of up to 15 min of runtime per charge when used with an 4 Ah lithium ion battery
- 510°C maximum temperature for variety of applications
- Safety switch prevents accidental start-up
- Ergonomic handle with overmould for improved user comfort and decreased fatigue
- Kitted with accessories that include the deflector nozzle for heat shrink applications as well as 75mm surface nozzle for removal applications
- Side and rear bumpers reduce risk of accidental damage to surfaces

18V STANLEY® FATMAX® V20 JOB SITE FAN

- Powerful motor with 650 CFM (1100 m3/h airflow) for maximum airflow efficiency
- 3 speed dial for optimum performance and control
- Up to 8 hours run time
- 178mm fan diameter coupled with compact and lightweight design helps reduce user fatigue when carrying
- Robust protective housing over fan blades for added durability
- Pivoting fan blades allow users direct the air where needed
- Mounting Screw feature allows users to mount unit in multiple places in the workplace
- 18V STANLEY® FATMAX® V20 Cordless System 4.0Ah battery recommended (supplied separately)

18V STANLEY® FATMAX® V20 POLISHER

- Powerful motor provides up to 2,800 RPM for a range of polishing and buffing applications
- Thumb positioned variable speed dial for control and consistency across multiple applications
- Lock-on switch for reduced fatigue during extended use
- Random orbit action prevents damages to surfaces, like car paintwork
- 254mm flexible foam backing pad for delivering consistent finishes across vehicle surfaces
- Ergonomic rubber overmould for optimal comfort on gripping surfaces
- Centrally positioned battery ensured even weight distribution balance is transferred through pad to paintwork
- 18V STANLEY® FATMAX® V20 Cordless System 2.0Ah or 4.0ah battery recommended (supplied separately)

POLE & CHAINSAWS

The range includes these powerful chainsaws that makes light work of cutting branches and logs and is ideal for larger outdoor cutting tasks such as landscaping, heavy pruning and fencing.

18V STANLEY® FATMAX® V20 20CM POLE SAW

- 20cm bar and chain provides efficient cutting for smaller out of reach branches
- Up to 4.5m reach with extension pole to cut hard to reach branches with your feet still firmly on the ground
- Angled head and blade provide a precise cut for awkward to reach branches
- Chain brake safety mechanism stops the chain in <1 sec
- Tooled for accurate chain adjustments
- Integral battery state of charge indicator
- Integrated hanging hook for safe storage - compatible with the STANLEY® Track Wall System - an adaptable storage system for the home, garage or workshop
- V20 4.0Ah battery and 2A charger included

18V STANLEY® FATMAX® V20 30CM CHAINSAW

- 30cm bar and 7.7m/s chain speed for fast, efficient cutting
- Chain brake safety mechanism stops the chain in <1 sec
- Auto-oiling system for minimal maintenance
- Tool-free chain tensioning system for quick and easy chain adjustments
- Bubble level for accurate, precise and level cuts, everytime
- Integral battery state of charge indicator
- Integrated hanging hook for safe storage - compatible with the STANLEY® Track Wall System - an adaptable storage system for the home, garage or workshop
- V20 4.0Ah battery and 2A charger included

BLOWER

Keeping the outdoors free of leaves and debris can be a time-consuming manual task which is why the V20 system include this blower with a high performance brushless motor to keep things clean and tidy with minimal effort.

18V STANLEY® FATMAX® V20 BRUSHLESS BLOWER

- Brushless motor technology for improved power efficiency and longer runtime
- High-performance brushless motor and axial fan design provides up to 9.9 m³/min and 160 Km/h to clear garden leaves and debris quickly and efficiently
- Boost mode - clear heavy debris with the push of a button
- Variable speed - maximise runtime efficiency and improve control
- 3.6kg lightweight, compact, comfortable and easy to use design
- Integral battery state of charge indicator
- Integrated hanging hook for safe storage - compatible with the STANLEY® Track Wall System - an adaptable storage system for the home, garage or workshop
- V20 4.0Ah battery and 2A charger included

PRESSURE CLEANER

Able to draw water from any source and with adjustable spray intensity, the V20 Pressure Cleaner gives you the portable freedom to clean wherever you need from patios, windows, brickwork, decking and outdoor furniture to washing your car or motorcycle.

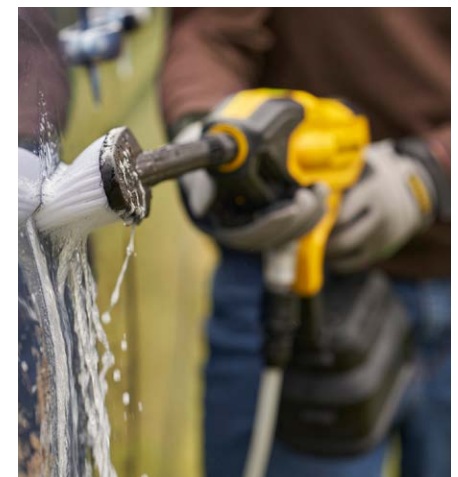

18V STANLEY® FATMAX® V20 PRESSURE CLEANER

- Draw water from any source - attach the cleaner to a typical garden hose or draw water from a bucket or pool
- Versatile 5-IN-1 nozzle with 5 different spray settings
- High and low speed control maximises runtime efficiency and improves control (24 bar hi speed / 13 bar low speed)
- Wrap around handle with overmould grip for better comfort, manoeuvrability and improved control
- Lightweight and portable for easy outdoor cleaning
- Interchangeable wands to choose the right length for the job:
standard wand: 57 cm, short wand (watering plants): only 16 cm*
- V20 4.0Ah battery and 2A charger included

HEDGE TRIMMERS

Having to deal with trailing cables or heavy petrol tools makes trimming hedges an arduous task. Instead, these cordless battery hedge trimmers are light and easy to use and will get the job done in no time thanks to cutting blades and Power Saw™ features for dealing with branches*.

*Feature not available with Pole Hedge Trimmer

18V STANLEY® FATMAX® V20 45CM POLE HEDGE TRIMMER

- 45cm blade manufactured from hardened steel for a precise cut and long life
- Up to 3.4m extended reach to cut hard to reach hedges with your feet still firmly on the ground
- 180° pivoting head and 5 adjustable cutting positions for versatility, improved productivity, comfort and control
- 4.1kg lightweight, compact, comfortable and easy to use design
- Integral battery state of charge indicator
- Integrated hanging hook for safe storage - compatible with the STANLEY® Track Wall System - an adaptable storage system for the home, garage or workshop
- V20 4.0Ah battery and 2A charger included

POWER PRUNER

Ideal for cutting through thick branches and stems, the high-performance 18V STANLEY® FATMAX® V20 Power Pruner features an interchangeable blade with 32mm cut capacity.

18V STANLEY® FATMAX® V20 POWER PRUNER

- Ergonomically engineered with a rubber overmould for maximum comfort and reduced risk of fatigue
- Delivers up to 1000 cuts per charge
- Strong, interchangeable blade with 32mm cut capacity ideal for cutting thicker branches – suitable for both wet and dry wood
- Interchangeable cutting blade (replacement blade available as accessory)
- Soft trigger ensures ease of use in repetitive applications
- Compact, lightweight and portable design perfect for prolonged operation
- V20 4.0Ah battery and 2A charger included

STRING TRIMMERS

If you need to clear large areas of long grass and weeds or even just tidy up around the bottom of trees or fences, a string trimmer is an essential bit of kit, especially when it is powerful, fully portable and easy to use.

18V STANLEY® FATMAX® V20 33CM STRING TRIMMER

- Large 33cm cutting swath for fast and effective trimming
- Automatic line feed mechanism feeds 1.6mm line when required
- Gear-drive transmission for increased torque and more cutting power
- High/low speed control and variable speed
- 2.4kg lightweight design with rubber auxillary handle and telescopic shaft for comfort
- Integral battery state of charge indicator
- Integrated hanging hook for safe storage - compatible with the STANLEY® Track Wall System - an adaptable storage system for the home, garage or workshop
- V20 4.0Ah battery and 2A charger included

LAWN MOWERS

Keeping a lawn neatly trimmed and in good condition can be a repetitive and time-consuming process so it makes sense to use a mower that will get the job done quickly with professional results. Both models include a mulching mode to add nutrients back in to the soil and there is a self-propelled model for mowing larger lawns.

18V STANLEY® FATMAX® V20 51CM MOWER

- Brushless motor technology for improved power efficiency and longer runtime, from a smaller, more compact motor for reduced maintenance, and extended working life
- Ultra-low profile 28cm deck ensures access in hard-to-reach areas
- Heavy-duty, large capacity 40L fabric grass collection bag
- Lightweight, compact and well-balanced design with ergonomic, soft grip handle
- Switch between mulching, bagging or side discharge for the perfect lawn
- Folding handles and collapsible grass collection bag
- Petrol style bar handle with ergonomic designed
- Carry handle for ease of transportation
- 18V STANLEY® FATMAX® V20 Cordless System 4.0Ah battery recommended (supplied separately)

V20
LITHIUM ION

18V STANLEY® FATMAX® V20 51CM SELF-PROPELLED MOWER

- Self-propelled operation with motorised wheels enables single-handed operation and requires much less user effort
- Ultra-low profile 28cm deck ensures access in hard-to-reach areas
- Heavy-duty, large capacity 40L fabric grass collection bag
- Lightweight, compact and well-balanced design with ergonomic, soft grip handle
- Durable 51cm plastic deck, and generous 49.5cm cutting blade for gardens up to 800m²
- Integrated roller* delivers the perfect 'striped lawn' finish
- Switch between bagging or mulching
- Single point height adjust with 5 height settings
- Folding handles and collapsible grass collection bag
- 18V STANLEY® FATMAX® V20 Cordless System 4.0Ah battery recommended (supplied separately)
